Aloha,

Thank you for participating in the Enhanced AIRWays Reporting Pilot. We very much appreciate the time and effort that you are putting into this pilot. Your feedback will allow us to continue to improve the AIRWays system.

Over the course of this pilot, AIR will be asking for feedback from you, your complex areas and complexes, and your schools and teachers. We'll provide you and other participants with a link to a survey later this school year. We'd appreciate as much feedback as possible. We'll also provide a link to an open feedback survey so people may provide open-ended feedback at any time.

The pilot system will be available for your users from May 6th until July 19th. We will be offering HIDOE a preview of the reporting system on May 2-3. We will provide the user guide at this time as well. While we won't be able to make changes during this May 2-3 preview period we'd be happy to take your feedback. If you would like a demo of the system during this preview period to familiarize yourself with the system we are happy to provide one.

In addition to the reporting of Summative assessments scores in the AIRWays system you are already familiar with, there will be several other reporting features added to AIRWays for the pilot. These features are: incorporating an Individual Student Report (ISR), hierarchical comparisons, the ability to breakdown reports by demographics, and the addition of the reporting data feature which allows users to see their reports as they existed on any given date.

If you have any questions during the preview and/or pilot, please contact the Hawaii Project Team (see below) and/or Rivka Gates (rgates@air.org).

Thanks,

Bill Murphy (wmurphy@air.org)

Emily MacGillivray (emacgillivray@air.org)

Jennifer Clouse (jclouse@air.org)
