### 1. ACT Assessments

#### The ACT (Grade 11)

#### **Important Update Regarding Inclusion of the Writing Test In the Spring 2016 ACT Administration**

Based on requests from schools, parents, and students to continue the inclusion of the Writing Test in the grade 11 ACT Assessment, all schools will be required to administer the Writing Test in addition to the English, Mathematics, Reading, and Science tests during spring 2016. The University of Hawai'i System has required students to submit writing test scores as part of the admissions process since 2005 which is why the Hawai'i Department of Education included the Writing Test in the spring 2013, 2014, and 2015 administrations of the ACT Assessment. The benefit of providing free writing test scores for students is the basis of the decision to continue administering the Writing Test. ACT's scoring package for states that administer the grade 11 assessment to all enrolled students requires that the same set of tests be administered to each student. Therefore, the administration of the Writing Test cannot be made optional for individual schools. The Writing Test will add 40 minutes to the total testing time for the ACT Assessment. The cost of the additional Writing Test will be paid for by the Department.
