## Introduction to Online Calculators in Smarter Balanced Assessments and EOC Exams

This document provides an overview of the online Desmos calculators available in the Smarter Balanced Assessments and Algebra EOC Exams.

The document illustrates the features of the calculators and provides instructions on accessing them from the HSAP portal.

### About Calculators in the Test Delivery System

Students may use the online embedded calculators for some Mathematic items in the Smarter Balanced Assessments in Grades 6 and above, and segment one and two of the Algebra I and Algebra II End-of-Course (EOC) Exams.

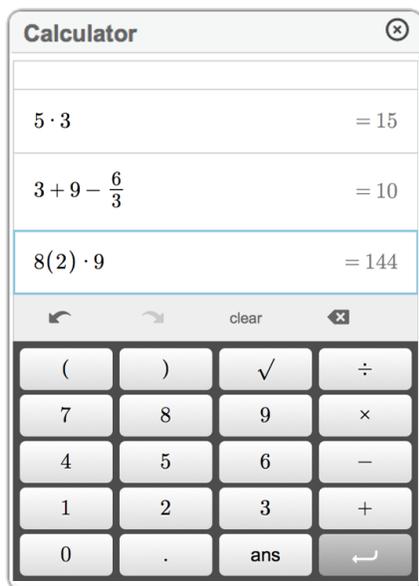

The Desmos HTML5 calculator is used by millions of students around the world and can be accessed from the web, or on iOS, Android and Chrome apps. This calculator is fully accessible at the WCAG 2.0 AA level (optimized for blind and visually impaired students).

Three versions will be used in the Hawai'i Statewide Assessment Program (HSAP):

#### Standard Calculator (Four Function)

Available for: Smarter Balanced Mathematics Grade 6

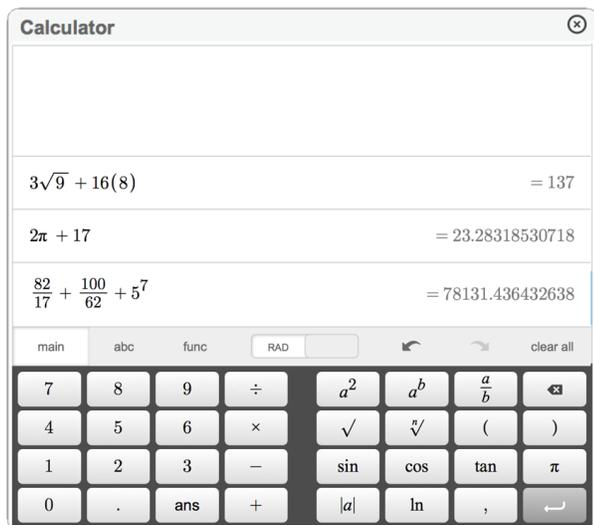

<https://www.desmos.com/fourfunction>

## Scientific Calculator

Available for the following tests: Smarter Balanced Mathematics Grades 7 and 8; Algebra I and Algebra II EOC Exams (first and second segments)

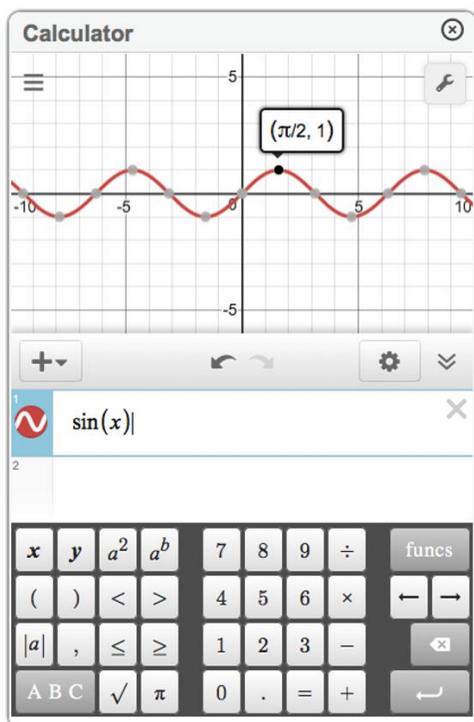

<https://www.desmos.com/scientific>

## Full Function Calculator (Scientific, Graphing, and Regression)

Available for the following tests: Smarter Balanced Mathematics Grade 11; Algebra I and Algebra II EOC Exams (second segment only)

<https://www.desmos.com/calculator>

## User Guide

The Desmos site ([www.desmos.com](http://www.desmos.com)) contains a wide array of resources to help both teachers and students become familiar with the calculator.

The full Desmos user guide is available at:

[https://s3.amazonaws.com/desmos/Desmos\\_Calculator\\_User\\_Guide.pdf](https://s3.amazonaws.com/desmos/Desmos_Calculator_User_Guide.pdf)

## Features of the Desmos Calculators

Desmos calculators have multiple features including the following:

- Desmos calculators have a user friendly interface.
- Desmos provides online training modules on how to use the calculator functions.
- Additional functionality is available with some of their calculators. Matrix functionality is coming soon.
- The Desmos calculators are accessible for students using Braille.
- Desmos calculators can be resized. Students can adjust the calculator window to better fit their screens and can toggle between the calculator and the test.

## Accessing the Sample Calculators

All sample calculators are available on the HSAP portal at [alohahsap.org](http://alohahsap.org). We encourage bookmarking the sample calculators so that users can easily open them. Desktop/home screen shortcuts can also be created so that the sample calculators can be accessed without an internet connection. The online calculators work on all supported browsers, as listed in the *System Requirements for Online Testing* on the HSAP portal.

## Open a Sample Calculator on Windows/Mac/Linux

---

1. Navigate to the HSAP portal. Then, click on either Smarter Balanced or EOC Exams >> Resources >> Test Administration. You may also use the Advanced Search to find the calculator links.

### Resource

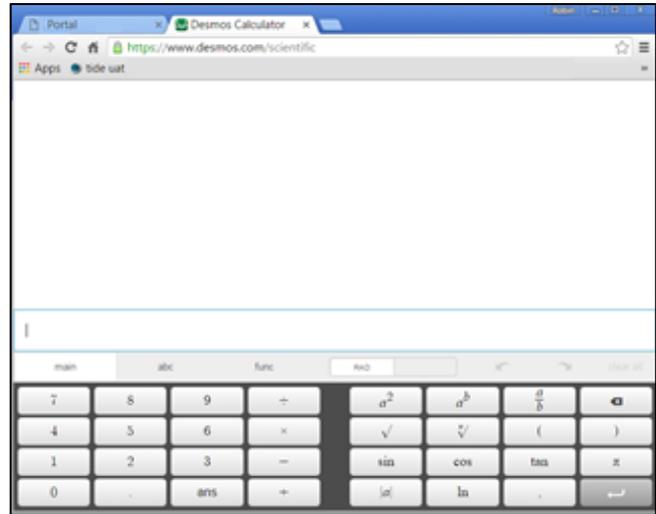

[Four Function Calculator](#)

[Scientific Calculator](#)

[Scientific/Graphing/Regression Calculator](#)

- 
2. Click on a [Calculator] link.

The sample calculator you selected will open in the browser window.

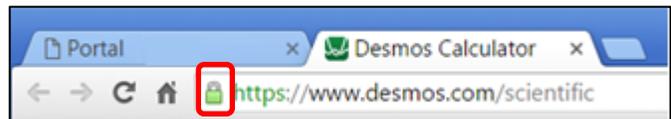

---

### Create a Desktop Shortcut to the Sample Calculator

*Note: Ensure the browser window does not take up the full monitor.*

1. Use your mouse to hover over the lock icon in the address bar.
2. Click and drag the lock icon to the desktop. A shortcut will appear that says "Calculator" and have the Firefox icon.

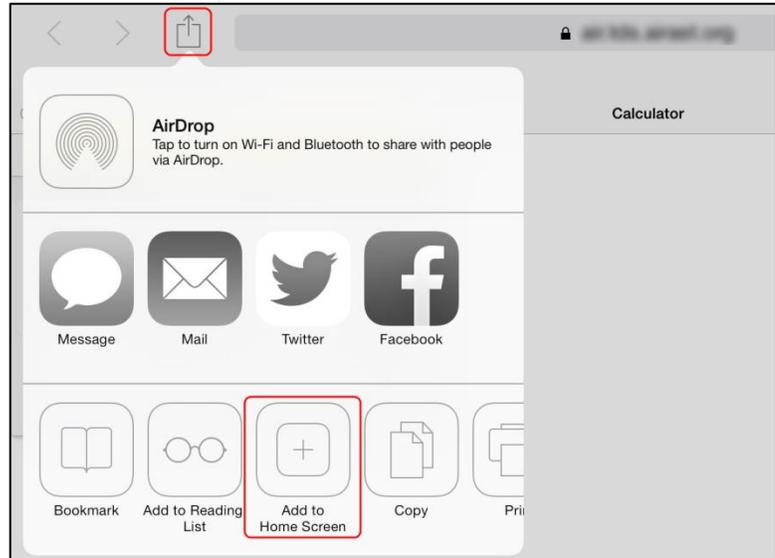

3. *Optional: Rename shortcut icon*
  - a. Click in the icon text and it will become editable.
  - b. Change the text to what you want (e.g., "Graphing Calculator").
4. Double-click the icon to open the sample calculator. It will open in Firefox.

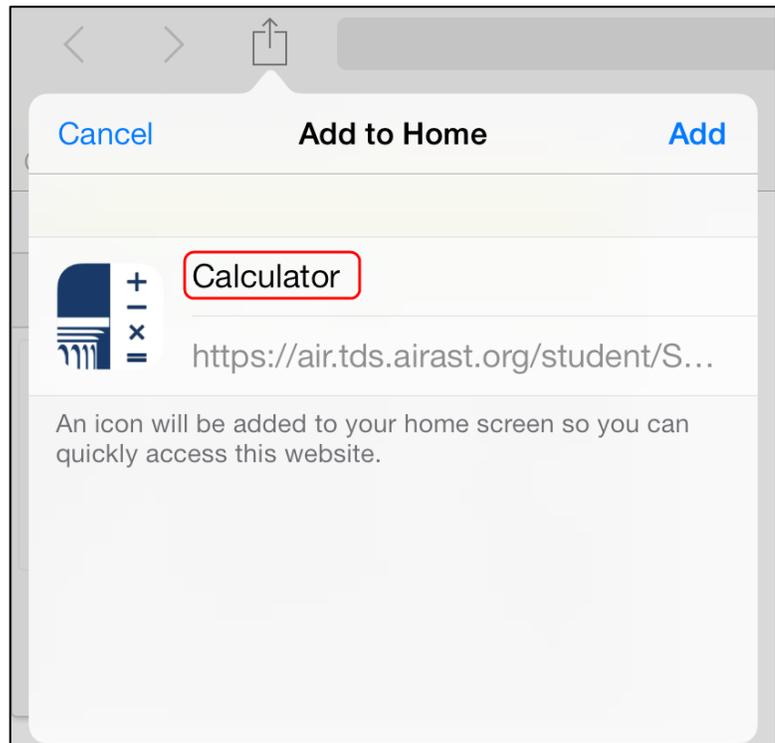

## Open a Sample Calculator on a Mobile Tablet

### Save a Sample Calculator to your Home Screen for iOS 8

1. Tap the “share” icon [  ], which appears just to the left of the address bar.
2. Tap the [Add to Home Screen] icon.

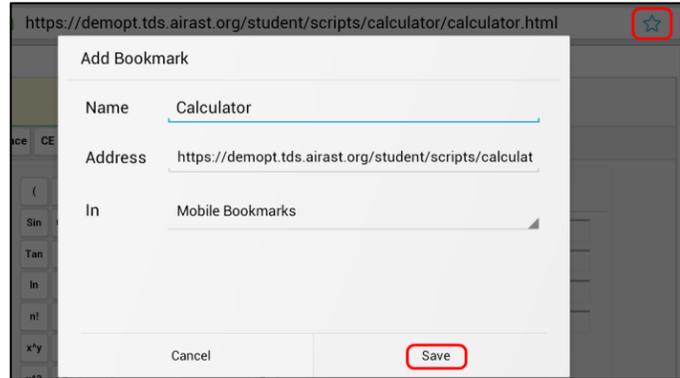

3. *Optional: Rename shortcut icon*  
(By default, all sample calculators are named “Calculator.”)
  - a. Tap on the text that says “Calculator.”
  - b. Using the tablet keyboard, add or modify text (e.g., “Graphing Calculator”).
4. Tap the blue [Add] link. The shortcut icon will appear on the Home screen.

## Bookmark and Add a Sample Calculator to your Home Screen for Android

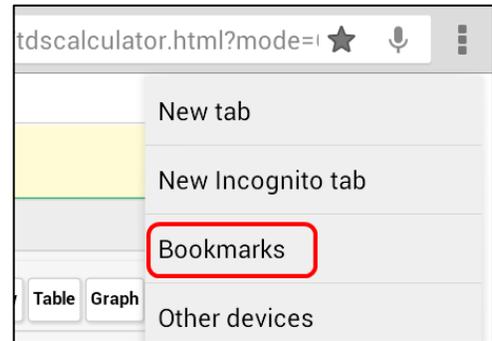

### Save the Sample Calculator as a Bookmark

1. Tap the star icon [☆], which appears on the right side of the address bar. The **Add Bookmark** screen will open.
2. *Optional: Modify the bookmark name*
  - a. Tap the text and then use the keyboard to change the name.
  - b. Tap the down arrow to close the keyboard.
3. Tap [**Save**].

### Add the Calculator Bookmark to the Home Screen

1. Tap the menu [☰] icon, which appears in the upper right corner. The menu will open.
2. Tap [**Bookmarks**]. The list of your bookmarks will appear.

3. Tap on the calculator bookmark.
4. Tap the menu [☰] icon.
5. Tap [**Add to home screen**]. Another window will pop up. Click the add button. The bookmark will be added to your tablet's home screen.
