

# English Language Arts/Literacy Focused Interim Assessment Blocks

## Blueprint

as of July 2019

The Smarter Balanced Interim Assessment Blocks (IABs) are one of two distinct types of interim assessments being made available by the Consortium; the other type is the Interim Comprehensive Assessment (ICAs). IABs are short, focused sets or blocks of items that measure one or more assessment targets. Results from these assessments provide information about a student's strengths or needs in relation to the Common Core State Standards (CCSS) and, therefore, generate more detailed information for instructional purposes than the summative or ICAs alone. The IABs are currently available as fixed forms. The fixed forms are administered online, using the same delivery software as the summative assessments.

This blueprint presents the specific blocks that are available by grade level for English Language Arts/literacy beginning at grade 3 and continuing through high school. Each block-level blueprint contains information about claim(s), assessment target(s), and depth of knowledge level(s) addressed by the items in that block as well as the numbers of items allocated to each of those categories. Other more subject-specific information is also included. For example, this blueprint incorporates details on passage length (claim 1 reading) and scoring of responses.

The blueprint can be used by educators to plan how to integrate the IABs effectively within classroom instruction or to better understand results that are reported. Users of the blueprint can become familiar with the number of IABs for each grade level, the general focus of each IAB, (i.e. which assessment targets are addressed in a specific IAB and the emphasis of each target relative to the other targets in the block). A fifth-grade English Language Arts/literacy teacher, for example, may wish to determine what practice students need in writing informational texts. The teacher would see that there is a block on revising texts composed of fifteen machined-scored items across three assessment targets—revising narrative, informational, and opinion texts—and another brief-write block composed of six items requiring hand scoring across the same three writing purposes. A third option would be to administer a performance task that deals solely with research and informational writing that is also hand scored. Given the differences in class time required and the amount of time needed to score blocks, the teacher would decide which blocks best meet the instructional needs of the class.

Finally, educators can use this blueprint in conjunction with the summative and ICA blueprints to support more comprehensive classroom-level instructional and assessment plans.

## Summary of ELA/Literacy Interim Assessment Blocks

SUMMARY: GRADES 3, 5-7	
Block Name	Number of Items
Write and Revise Narratives	8-10
Language and Vocabulary Use	15
Editing	13-14
Listen and Interpret	14-15
Interpret and Integrate Information	10-12
Analyze Information	10-12

SUMMARY: GRADES 4, 8	
Block Name	Number of Items
Write and Revise Narratives	10
Listen and Interpret	14-15
Interpret and Integrate Information	12
Analyze Information	10-12

**SUMMARY: GRADE 11**

Block Name	Number of Items
Write and Revise Narratives	10
Language and Vocabulary Use	15
Editing	15
Listen and Interpret	15
Interpret and Integrate Information	10
Analyze Information	10

### Grade 3

Write and Revise Narratives
